Our team treats more radiation therapy patients than any other hospital in the Washington, DC area. Our Radiation Oncology Department includes board-certified, experienced radiation oncologists who are routinely ranked as “Top Doctors” in *Washingtonian*, *US News & World Report*, and *Northern Virginia* magazines.

Our integrated team also includes board-certified medical physicists, dosimetrists, certified radiation therapists, certified clinical social workers, certified oncology dietitians and outstanding and caring oncology nurses.

Our physicians specialize in a vast array of cutting-edge technologies at the forefront of the fight against cancer, including Intensity Modulated Radiation Therapy, Stereotactic Radiosurgery, Stereotactic Body Radiation Therapy and High Dose Rate Brachytherapy. We offer a multidisciplinary approach and work closely with our colleagues in surgical and medical oncology to provide our patients with the most complete and advanced care.

All five Inova hospitals are ranked in the top 15 hospitals in the Washington, DC metro area for 2013-2014 by U.S. News & World Report, including Inova Fairfax Hospital, ranked #1 in the region.
